Special Needs At Sea — Your One-Stop Solution for Oxygen and Mobility Rentals

Do not let the need for supplemental oxygen or mobility assistance keep you and your family from seeing the world. Once considered a barrier to travel, oxygen and mobility aids can now enhance the enjoyment of travel.

According to the U.S. Census Bureau over 16.5% of all persons 65 years or older have some form of “go outside the home” disability. As this population grows with the inclusion of baby boomers, the number of people with disabilities or have need for mobility assistance is quickly growing larger.

Despite the need for assistance however, they are living longer and remain more active than ever before. Let *Special Needs at Sea* help you and your clients stay on the move.

A 2005 study revealed that disabled Americans take more than 31.7 million trips per year. Some 80-90% of them travel with at least one or two companions.

WHO WE ARE

Special Needs at Sea is a travel services company dedicated to fulfilling the medical oxygen and mobility requirements for all cruise passengers. For several years, we’ve developed our system of offering easy access to ALL the equipment you and your family need to make the travel experience comfortable and enjoyable. The *Special Needs at Sea* staff are highly trained professionals dedicated to serving the needs of our customers.

WHAT WE DO

Passengers no longer have to worry about the hassle of lugging home devices on a plane or in their cars. We deliver our rentals directly aboard the ships for major cruise lines. We have established a worldwide network of agents and partners to meet the special needs requirements of the traveling public.
